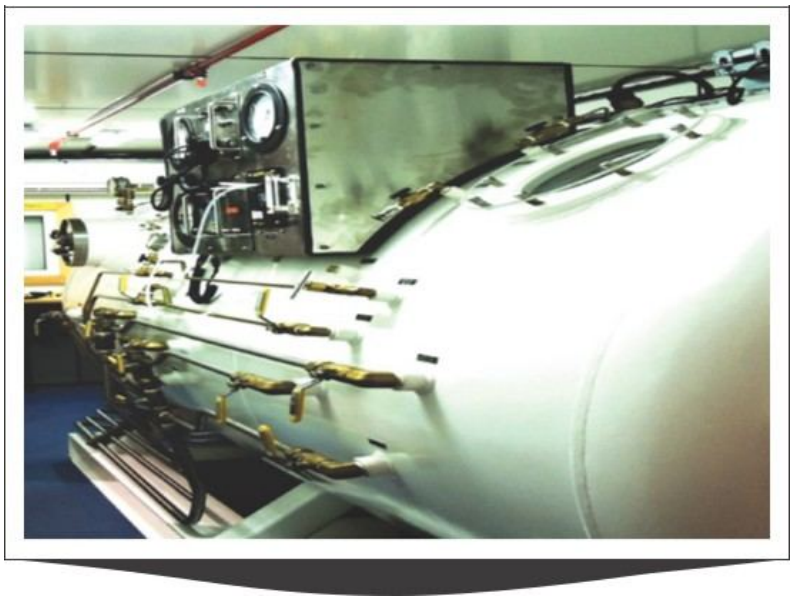
DIVING SPREADS

Air Diving System — 58m (190ft)

58m / 190ft depth	IMCA D018/D023/D040	20ft DDC	1t main winch



SCOPE OF WORK

A modular air diving system rated to 58 metres (190 ft), compliant with IMCA D018, D023 and D040, comprising a 20 ft deck decompression chamber, LARS with a 1-tonne main winch, diving basket and HP compressor/air-bank container — built for inspection and light intervention work within air-diving depth limits.

DDC	
Length / width / height	3,620 / 1,770 / 1,927 mm
Internal dia.	1,500 mm
Depth rating	100 msw
Volume (main / entry lock)	4,100 L / 1,800 L

Launch & Recovery / Basket	
LARS	1.3 t rated A-frame, hydraulic ram luffing
Diving basket	1,200 x 120 x 2,385 mm, 400 kg payload, 1,000 kg gross

Winches	
Main winch	1.0 t max lift, 18 m/min, 80 m wire, direct hydraulic
Guide weight winch	0.65 t max lift, 36 m/min, 160 m wire

Power	
Main supply	415/400V 3-phase, 50/60Hz, 110 kW
Emergency supply	415/400V 3-phase, 50/60Hz, 60 kW

Machinery Container	
Dimensions	6,058 x 2,440 x 2,465 mm
Compressors	3 x HP breathing air compressors, 56 x 50L 200-bar cylinders
