JACK-UP UNITS

Jack-Up Barge — 90ft Working Depth

90 ft working depth	70t main crane	2,500 ft² deck	29 berths

SCOPE OF WORK

A smaller three-legged jack-up barge working to 90 ft water depth (with 25 ft air gap), carrying a 70-tonne main crane and 2,500 ft² open deck. Twenty-nine berths and a moon pool suit it to platform maintenance, minor construction and support duties in shallower fields.
