REMOTELY OPERATED VEHICLES

Hydraulic Heavy Work-Class ROV — 3,000msw

3,000 msw	350 kg payload	8 thrusters	150hp hydraulic system

SCOPE OF WORK

A hydraulic heavy work-class ROV rated to 3,000 msw with a 350 kg payload — the largest in this range — powered by a 150 hp system and eight thrusters giving symmetrical thrust in all directions. Schilling Conan and PSSL TA60 manipulators and an 8-camera capacity suit it to heavier construction, IRM and tooling-intensive subsea work.

Vehicle	
Depth rating	3,000 msw
Length	3,650 mm
Payload (wet, standard fit)	350 kg

Power & Control	
Power system	150 hp hydraulic, 8 high-performance thrusters
Control system	PLC-based, single-mode fibre optic

Tooling & Sensors	
Manipulators	Schilling Conan + PSSL TA60 (Rigmaster)
Cameras	Colour zoom, near-SIT, colour dome — capacity for 8 cameras
Lighting	2 x 250W + 5 x 500W dimmable, 3,000W capacity
Sonar	Tritech PA500 + Sea King
